Inspection of Choice Farm Acres Will Be Profitable.

Cost Only a Trifle Compared to Possible Benefit to Be Derived—"Ye Happy Fields, Unknown to Noise and Strife, The Kind Rewarders of Industrial Life"—John Gay.

There are thousands today looking for farms to buy, and with the hundreds of thousands of acres offered for sale, there is no lack of opportunities. But there are all classes of lands, good, bad, and indifferent, much of each. The government of the Dominion of Canada has no land for sale, but within the boundaries of the Dominion there are unlimited acres of choice land owned by railway and land companies and private individuals. It holds no brief for any, nor are any of them clients. But it is to the interest of the Dominion to have the hundreds of thousands of acres placed under cultivation, for every acre thus cultivated adds to the revenue which helps pay the government of the country. It is with the purpose of setting forth the agricultural advantages that Canada, especially Western Canada, possesses, that attention is drawn to the fact. The purpose is to place before the reader truthful statements, and advise the prospective settler as to the necessity to investigate and inspect, leaving to his own deduction the matter of his selection. Once he decides, the government will render him any further information necessary as to location, prices and value of land, and assist him in every way possible to become settled.

The cost of a trip to Western Canada, to any portion of the three provinces—Manitoba, Saskatchewan and Alberta—specially indicated in this work, is but a trifle compared with the benefits that a personal inspection may give. Therefore the advice is to do so. Low rates on railways will be arranged and every opportunity afforded for giving the country a thorough and careful examination. It may be that you wish an improved farm, all ready for occupation and cultivation; you may want raw prairie, which only requires plowing and the other preparation necessary for a seed bed, leaving it to yourself to erect your buildings, sink your well, prepare your garden, and ascertain how close you are to school, church, town and market. You may wish to go into mixed farming, combining the raising of stock with the growing of grain. In this case you will look out for some shelter from sun, wind and storm, and want a farm a portion of which may be cultivated for grain, and pasture fields connected with it. You may make this out of the open level prairie, but you will do better to secure a partially wooded lot, where water and pasture are already at hand. You may wish to go into the raising of cattle, or sheep alone; then you will care less for the open prairie, but select something that may cost you less in the more northerly districts. No matter what you may want, unless it be land upon which to grow cotton, bananas or other tropical or semi-tropical products, your inspection trip will reveal to you that Western Canada possesses possibilities beyond which any literature you may read advises you.—Advertisement.

KIDNEY TROUBLE OFTEN CAUSES SERIOUS BACKACHE

When your back aches, and your bladder and kidneys seem to be disordered, go to your nearest drug store and get a bottle of Dr. Kilmer's Swamp-Root. It is a physician's prescription for ailments of the kidneys and bladder.

It has stood the test of years and has a reputation for quickly and effectively giving results in thousands of cases. This preparation so very effective, has been placed on sale everywhere. Get a bottle, medium or large size, at your nearest druggist.

However, if you wish first to test this preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Adv.

Bored by His Elders.

William Robertson Smith, who later became one of the most learned Biblical scholars of his day, was a very precocious child. Talk was a passion with him, declare his biographers, but even in his very early years he insisted that it must be good talk. Nothing worried him more than to listen to the conversation of the company that came to his father's house when it was not of the improving sort, especially if he had to sit silent himself, according to the rules then strictly enforced on children. On one of these occasions, when a reverend colleague had stayed long and after having prosed mercilessly, had at length left, Willie is said to have drawn his stool up to his father's knee. "And now, papa," he said, looking up with an air of one whose endurance is at an end, "let us have a rational conversation!"

Swift & Company's 1918 Earnings

How They Affected You

During the twelve months ended Nov. 2, 1918 (its fiscal year), Swift & Company transacted the largest volume of business on the smallest margin of profit in its history.

Profits of the meat business—under regulations of the United States Food Administration—were limited to a maximum of 9 per cent on capital employed but not to exceed 2½ cents per dollar of sales.

Swift & Company in the regulated departments earned 7.57 per cent on capital employed and 2.04 cents per dollar of sales, out of which had to be paid interest on borrowed money and taxes. Here is how these earnings affect you.

Live-Stock Raiser—

Swift & Company killed 14,948,000 head of livestock, which weighed alive, 4,971,500,000 pounds.

Swift & Company made a profit of only a fraction of a cent per pound liveweight.

Consumer—

The sales of our meat departments were 4,012,579,000 pounds on which our earnings were less than ½ cent per pound.

The per capita consumption of meat in the United States is given as 170 pounds. If a consumer purchased only Swift & Company's products he would contribute only about 78 cents a year, or 1½ cents a week as profit to the company.
